JBIS

JOURNAL OF THE BRITISH INTERPLANETARY SOCIETY

VOLUME 26 1973

Editor: G. V. GROVES
University College London, WC1

Assistant Editor: N. H. LANGTON
Robert Gordon's Institute of Technology, Aberdeen

PUBLISHED BY THE BRITISH INTERPLANETARY SOCIETY
12, BESSBOROUGH GARDENS, LONDON, SW1V 2JJ.

SUBJECT INDEX

Aeronautical satellites 71, 90, 513
AEROS satellite 28
Air traffic control 90
Ammonia 395
Anik satellite 193
Antennae 49, 260, 326
Antimatter 122
Ariel 4 satellite 129, 135
Asteroids 688
Atmospheric entry 52
Attitude 228
  control 30, 178
  determination 38, 348, 715
  stability 343
  system 28
Beryllium 552
Big-bang 372
Binary dwarfs 183
Black Arrow 7
Black holes 58, 187, 250, 432, 488, 491, 563, 689, 690
Boom systems 705
Booster structure 597
Canada 193
Celestial mechanics 61
Checkout equipment 148
Comets 560
  formation of 623
Communications satellites 65, 257, 449, 521, 533
Cosmology 58, 184, 188, 430, 443, 510, 558
Data
  conditioning 153
  handling 172, 177, 581
Docking 606
DODGE satellite 343, 641
DRALLRAD momentum wheel 106
Earth
  expansion of 558
  history 180
  orbit 51
  sensors 28
Earth resources
  aircraft facility 728
Electron density 135
ERTS 577, 662
ESRO IV 242, 705
Europe 257
Faculae 54
Galaxies 576
  bridges and tails 309
  clusters 122
  compact 692
  cosmic rays 181
  distribution 691
  evolution 58, 308
  'exploding' 372
  formation 249

hydrogen . . . 184
nuclei . . . 371
spiral structure . . . 691
GEOS satellite . . . 641
Geostationary satellites . . . 220
Gimbal systems . . . 106
Gravitation . . . 510
constant . . . 692
radiation . . . 756
Halley's Comet . . . 52
Hybrid rocket propulsion . . . 253
Hydrazine . . . 19
Hydrological cycle . . . 667
Infra-red detection . . . 188
Interstellar
clouds . . . 55
flight . . . 481
gas . . . 490
material . . . 755
molecules . . . 251, 489
